

DREAMERS

ages 1-PP!

In the first five years of a child's life, it is known to be the key time where a child is forming impressions about themselves and the world.

Yet we also know the limitless imagination that our kids have at this age! Not yet do they fully understand the limits of hours in a day, the expectations on them, the pressure of deadlines at school, the things they are or are not 'good at' or the limits to what they can or can't do!

We want to use their ability to dream and wonder as a kickstarter for their faith.

Of all the things we could put in an environment for our kids... what are we giving them to help them dream about God?

Do they have space to wonder at the stories in the Bible in a way that is relevant - if Jesus has a pet dog too, or if His hair was blue? Can they dream about a Jesus they can have relationship with and all the things that God has made?

More importantly, do we give them space to use their ability to wonder as a tool to be captivated by Jesus?

It's our prayer that the stories shared from the Bible in True North Kids, the praise and worship songs sung, the love that is shared and the crafts that are made would all draw these kids to Jesus. So that when they come home, they can continue the conversation and wonder with you about who Jesus is too!

That their needs to feel safe, able and in control would be reflected in their own wonder of God and His Church, as they bravely hang out with their friends and leaders on a Sunday.
